

Magic to the World e.V.

Magic to Uganda II – tree planting in Madi Opei

We are Magic to the World e.V. a German NGO with the aim to support developing communities around the globe. Together with our friends in northern Uganda, we want to stop desertification and the negative impact of climate change by planting trees together with schools and the local village population.

Summary of the project:

- **30.000 trees** for the Madi Opei region, Uganda, in collaboration with local schools and their students, 1.000 trees each for 30 villages
- Positive effects on the local micro-climate and slowdown of the desertification through reforestation
- **Education for the local population** by workshops and programs
- New future food sources as well as protection against aridification

To support our project in Uganda we are **looking for financial aid** as well as **Volunteers, who want to help** in the field between 21.03.-26.04. For more information please visit www.magictotheworld.de/en/

For Donations: Magic to the World e.V., IBAN: DE26 7002 2200 0020 4429 13, BIC FDDODEMMXXX, Fidor Bank – or – www.paypal.me/magictotheworld

For questions, the possibility of sponsoring trees or if you want to join our trip, feel free to contact us via magictotheworld@gmail.com or +49 151-43188926.

100% of the money raised will be invested directly in the project, our volunteers cover all their expenses themselves. Your donations qualify for tax deduction of citizens of the European Union.

Please let us know if you would like to receive a donation receipt.
